Dim mak (death touch) is an ancient martial art that consists of striking certain points on the body to cause illness or death.

The Science Behind Dim Mak death touch Includes dim mak ...

There is essentially little to no scientific evidence that the "Death Touch" or the pressing of other pressure points can lead to death — but it's fair to say that certain fighting movements, like a heavy blow to the temple or an obstruction of the breathing tubes, can certainly lead to dizziness, lack of oxygen, unconsciousness — and in severe cases, death.

The Truth About Pressure Points: Which Ones Can Kill You ...

In an effort to spread this knowledge to western practitioners, both medical and combat, Dr. Kelly has published several books, including Death Touch: The Science Behind The Legend Of Dim-Mak. He also wrote several articles, published in magazines like Combat & Healing and Black Belt , the latter of which discusses cases of people dying from dim mak blows received during training and sparring sessions.

10 People Who Claimed To Hold The Secret Of The Death Touch
