Brake Repair Manuals | Discs, Drums and More

SLIDING CALIPER TYPE. - The sliding caliper type disc brake (fig. 7-18) is mounted in a slot in the caliper adapter. It is a variation of the floating caliper, using a single piston and operating on the same principle, whereby the piston applies pressure to one brake pad and the movable caliper applies pressure to the other.

Sliding Caliper Type - tpub.com

Box Disc Brake Adapter The all NEW Box Disc Brake Adapter is designed to help improve braking control on frames where disc brakes were not standard. Compatible with 2 types of dropouts and 3-10mm hubs, in the right configurations, the Box Disc Brake Adapter goes over your hub's axle and mates with the frame's dropout, allowing mounting of a standard post mount disc brake caliper. Please ...

Box One BMX Disc Brake Adapter (Sliding Dropout)

If the rotor is rubbing, loosen the two bolts that mount the disc brake to the frame, and tighten them back while squeezing the brake lever. This ensures that it's centered. If there's still...

How to Adjust Bike Brakes | Bike Brake Rubbing

There are three general types of disc brakes: sliding caliper, floating caliper, and fixed caliper. Sliding and floating are similar, and are the most common. It is critical to thoroughly test brake work by taking the vehicle for a test drive before releasing it to its owner.

BRAKING SYSTEM REPAIR

Check the drag of rear disc brake again. If any drag is found, disassemble the brake caliper body. Burnish contact surfaces after refinishing or replacing disc rotors or if a soft pedal occurs at very low mileage. Refer to BR-19, "Brake Burnishing".

Nissan Rogue Service Manual: Rear disc brake - Unit ...

The unit, which is actuated by the mechanism lever (A), presses the inner brake pad (B) against the disc, which then causes the caliper (C) to slide laterally, so that the outer brake pad (D) also comes in contact with the disc, see figure 2. The caliper moves on slide pins (E), see figure 3.

INSTALLATION/SERVICE MANUAL

Lightweight brakes with heavyweight performance. The Haldex Air Disc Brake ModulT features a unique combination of low weight and high performance - and an unbeatably broad field of applications. Weighing in at a mere 31 kg - including the brake pads - it is the lightest 22.5" trailer brake on the market. DBT22LT is just the beginning.
