Drone strikes were halted in November 2011 after NATO forces killed 24 Pakistani soldiers in the Salala incident. Shamsi Airfield was evacuated of Americans and taken over by the Pakistanis December 2011. The incident prompted an approximately two-month stop to the drone strikes, which resumed on 10 January 2012.

Drone strikes in Pakistan - Wikipedia

At this time, drones account for the fastest-growing transportation sector, with more than 1.7 million aircraft registrations and roughly 203,000 FAA-certificated remote pilots.

FAA Releases New Drone Regs, RC Model Guidance | Flying

By Ralph Butcher. All pilots have been taught the importance of using written checklists, but a few ignore this flight safety resource. The FAA's practical test standards clearly state that pilots must use appropriate written checklists, yet the accident record shows that some pilots don't.

Before Takeoff Checklist - AOPA

FPV UK is an association of recreational radio control drone and model aircraft (technically 'unmanned aircraft') pilots. FPV UK was formed in 2009 to champion and protect the hobby/ sport of FPV (first person view) flying and successfully persuaded the CAA to issue an exemption for FPV flying in 2009.
