Laozi describes them as a duality that exists in everything. Day and night, man and woman, life and death, etc. They're two opposing sides that don't contradict each other but complement each other and depend on one another. One doesn't want to impose itself on the other. Instead, they coexist in balance with each other.

Duality is an essential concept that must be grasped if one is wanting to have a deeper understanding of life. Without recognising duality, we are missing out on one of the most profound learning tools available. Duality teaches us that every aspect of life is created from a balanced interaction of opposite and competing forces.

[PDF] The duality of human existence : an essay on ...

In my opinion, the duality of humans consists in a active part and a thoughtful part. According to a person life history or simply to their view, we can have a part that is more dominant. For active I intend the way we act in the real world. We do A to obtain B after, and we are set.

What exactly is the duality of human nature? - Quora

Duality of Human Nature does exist. Science claims that you are a strictly physical being. But scientific medical research has proven that reincarnation is real, which confirms that you have a soul and a body. Find the answers in this book: Investigating Eternal Existence Through the Duality of Human Nature.

Duality Human Existence - AbeBooks

Property dualism asserts that an ontological distinction lies in the differences between properties of mind and matter, and that consciousness is ontologically irreducible to neurobiology and physics. It asserts that when matter is organized in the appropriate way (i.e., in the way that living human bodies are organized), mental properties emerge.

Mind-body dualism - Wikipedia

The separation between the first and third layers is the cause for the "duality." It is precisely because your mind cannot directly experience the universe that a duality is formed, which separates understanding, meaning, and truth into two parts: relative and absolute. What is the Duality?

The Relative and the Absolute - The Nature of Duality ...

Duality is an essential feature of the human brain. Our brain uses concept of duality to understand the world and to make sense of it. It works on the principle of relativity. Relativity helps mind to understand the measurements, languages and words.

I suggest there is "no reality" without duality as the negative/positive charge attraction/opposition...etc is responsible for the existence of the reality. No thought or person would be possible without it.

Is duality the true nature of existence? - Quora

Examples and Observations. "Human language is organized at two levels or layers simultaneously. This property is called duality (or 'double articulation'). In speech production, we have a physical level at which we can produce individual sounds, like n, b and i.
